

# School Meals During COVID-19

Healthy Meals for All Students

## School Meals are Available

We are committed to providing meals to **all** our students during this public health crisis. Meals include a variety of fruits, vegetables, whole grains, proteins, and milk.

## School Meals are Safe

Our school nutrition professionals follow all national, state, and local guidelines for safe food preparation during the COVID-19 pandemic. This includes frequent handwashing and wearing face coverings.

## School Meals Support U.S. Farmers

School meals feature products grown in the United States. Many foods, such as fruits, vegetables, and dairy, are grown and produced by farmers in Wisconsin. Participating in our school meal programs helps support local agriculture.
